

SLASH CLOTHING PRICES THROUGHOUT COUNTRY

**THURSDAY, MAY 27 TO
BE HOLIDAY DEVOTED
TO CLEANING ISLAND**

**Request Made That Busi-
ness be Suspended
For Afternoon.**

The chairmen of the various committees in charge of the clean up on the city island, met yesterday afternoon and decided upon Thursday May 27 as the date for the holiday. Business and professional men will be asked to cease operations for the day at 11:30 a. m. and go to the island and assist in the clean up work. Custodians of the various city parks will be on hand to assist in the work, and to direct operations.

The committee in charge is anxious to preserve the natural beauty and vegetation on the island and care will be exercised by the supervisors in seeing that none of the natural beauty is disturbed or destroyed. This angle of the clean up work will be gone over thoroughly by the chairmen of the various committees and the program of operations laid out before that date. Every merchant and professional man will be expected to lend his assistance in cleaning up the island on that day, not only by closing up his business at 11:30 o'clock but by putting on old clothes and going to the island and assisting in the work.

Asked to Bring Lunches w Those who aid in the worst case are requested to bring lunches if convenient, and if not, hot coffee and sandwiches will be supplied on the island, the house committee of the Elks' club to have charge of this important duty. The uncertainty of the size of the crowd makes it essential that those who can, bring their lunches.

Two docks will be established for the transportation of workers to and from the island. Those from the south side will be transported to the island from the Epsey dock on East River street and those from the north side will leave at the foot of Assembly Place. The weather providing, it is expected that there will be no less than 300 workers, who will spend the best part of the afternoon in cutting down weeds, burning up dead limbs and rubbish and assisting in the general clean up of the island.

**Three Reappointed
to Hospital Board**

The city council last evening re-appointed Mrs. Charles Russell, Mrs. Harry Wheeler and Mrs. William Frye to the board of directors of the hospital. The regular semi-monthly meeting of the board was held and allowed. Complaint was made to the council by citizens residing south of the Northwestern tracks relative to the blocking of the crossing just west of the depot by freight trains. This matter as well as that of providing a faemman or suitable crossing gates at this particular crossing were discussed. The matter of taking some precautionary action to prevent accidents at this crossing was brought up by the council and was the subject of considerable correspondence between the city officials and the railroad authorities some weeks ago, but to date no action has been taken to provide crossing gates or a flagman.

**Suffragists Sail to
Attend World Meeting**

By Associated Press Leased Wire
New York, May 19.—Headed by Mrs. Currier Chapman, 50 delegates, alumnae and visitors are sailing today to attend the eighth congress of the International Woman Suffrage Alliance at Geneva, Switzerland, June 6 to 12. During their stay abroad the women propose to inaugurate a world league for women voters, comprising 100,000,000 women in 20 nations where they enjoy the franchise.

Mrs. Josephine Daniels will be the official representative of the United States government. Miss Marjorie Shuler of the National American Suffrage association and Mrs. J. Hamilton Lewis of Chicago are included in the party.

**Plow Makers Victors
in League's Opener**

The first game of the Twilight League schedule was played at the Brown shoe factory field last evening, and the shoemakers were defeated 2 to 1 by the Grand Detour Plow Co. aggregation. However, it is reported, the close score does not reflect the relative merits of the teams—the plow makers being complete masters of the situation at all times. The next game will be played tomorrow evening between the American Legion and Y. M. C. A. teams.

Miss Marion Pyfer is assisting at the Woolworth store this week in the place of Miss Florence Potter, who is taking a vacation.

**EXHIBITION OF
WORK IN MANUAL
TRAINING DEPT.**

**Patrons of Schools In-
vited to Inspect
Display.**

The manual training and art departments have arranged an exhibit of the children's work in the gymnasium in the south high school. Every school on the south side is represented. One hundred twenty large amounts of drawings have been selected from the various grades and arranged for this exhibit. More than one hundred pieces of wood work are ready for inspection. Parents ought to see this work. It will show much of what is being attempted by the children in these departments.

The gymnasium will be open on Wednesday 1:20 to 4:30; Thursday, 1:30 to 5:00; Friday, 1:30 to 5:00, and 7:00 to 8:00 p. m.

The following high school boys will have charge of the exhibits: Harold Hultz, Clifford Buzzard, Harold Tuttle, Ivan Wakeley, and Harry Fordyce.

The general management is in the charge of Miss Louise Zilly, supervisor of the art department, and H. P. Stearns, head of the manual training department. Parents and patrons are urged to make a short visit to the gymnasium to see these exhibits.

The Loveland, Central-Elementary and High schools of the north side have arranged an exhibit of manual training and art in Kindergarten hall. More than 200 large amounts of drawings and 49 pieces of woodwork are ready for inspection. Some are finished products, others show the steps in the process of construction. Kindergarten hall will open Thursday, May 20, from 1:30 to 5:00 and from 7:00 to 9:00. These exhibits will be in charge of the following boys from the North Side High school: Lon Boyer, Allen Baird Wilfred Shawyer, Vernon Van Bibber, Harold Kime and Wilfred White.

Parents cannot afford to miss this opportunity to see this work of our schools.

The exhibit, as a whole, is under the supervision of Miss Louise Zilly, supervisor of art, and Mr. R. E. Bates, teacher of manual arts.

**Indiana Democrats
to Praise President
and Knock Governor**

By Associated Press Leased Wire
Indianapolis, May 19.—Nomination of a state ticket, selection of delegates to the national convention at San Francisco and framing of a state platform for the party are the principles objects before the Democratic state convention which opens today with district meetings. President Wilson's administration will be endorsed in strongest terms, leaders declare and the treaty of Versailles as upheld by the President will be approved.

Governor Goodrich they anticipate will be severely arranged in the party platform. The attack will be made particularly on the governor's pardon record and the state university. No candidates filed for the Democratic presidential preference at the primary and it is almost certain that the delegates to the national convention will go uncommitted. It is understood, however, that the delegation will vote solidly for Vice President Marshall if his name is presented at San Francisco.

THE HUMAN ROULETTE WHEEL

**PARK COMMISSIONERS
DETERMINED TO STOP
VANDALISM IN PARKS**

**Vigorous Treatment Prom-
ised Those Who Dis-
obey Rules**

Destruction of plants in Lowell park and dumping of cans and ashes on the north river bank between the dam and North Jefferson avenue, where the park commissioners are endeavoring to establish a beautiful river side park, have brought forth the following vigorous warning from the park board:

Flowers, ferns or plants of any kind must not be picked, removed or mutilated in Lowell or other city parks. The park board has each year set aside a proportion of its funds for the purpose of replacing and increasing attractive plants which are native or appropriate to the park. The last two years \$75 worth of small plants such as blue-bells, ferns, marsh marigolds, galax, etc., were set out in Lowell park and this spring they made quite a showing but within the last two months nearly all have been removed by vandals. The most unpleasant thing about it is that most of this vandalism is committed by people who know it is not right and who would be ashamed to have their neighbors know they stole.

The board has for several years been improving the river bank from the dam to North Jefferson avenue as fast as its funds permit. A few of the neighbors, however, persist in throwing their ashes and tin cans over the bank, doing so very early in the morning or in the night to avoid detection. Nothing will ever grow in these dumps and the commissioners are put to the expense of removing them or covering them deeply with good earth which in either case is more than the expense would have been to have hauled the material to a proper dumping ground. Why not throw your rubbish into your neighbor's yard? It would be exactly as appropriate. There is but one proper dumping place on the north side and that is between the bridge and the dam.

The commissioners have so far seldom resorted to stern measures because most of the trouble came from thoughtlessness and the offenders soon saw the light and offended no more. It is to be regretted that the majority of cases now as to the matter of the flowers and ferns are deliberate thievery and in the case of the dumping pure viciousness, both of which call for vigorous treatment.

Enjoy the flowers and plants but leave them for the next visitor to enjoy, too.

**BAND CONCERT

**Ex-Service Men Ready
for Tomorrow Eve-
ning's Meeting.**

The officers of Dixon Post No. 12, American Legion, have completed all arrangements for the big public meeting at the Armory tomorrow evening, which will be addressed by Commander Col. Milton J. Foreman and other state Legion officers, and to which all friends of the ex-service men are invited.

Col. Foreman and his party will arrive in the city early tomorrow evening and will be guests of the local post until 8 o'clock, when the gathering at the Armory Hall will be called to order. For half an hour preceding the meeting the Dixon Municipal band will give a street concert in front of the Armory.

Many ex-service men from Lee, Ogle and Whiteside counties will attend this meeting, which is in the interest of the Legion's state-wide campaign drive, and after the program the ladies of the Service Star Legion will serve coffee and doughnuts to all. Everyone is invited.

**Mrs. McKenney Rites

**LIQUIDATION OF

**Urged to Force Food
Stuffs From Cold
Storage Plants.**

By Associated Press Leased Wire

Washington, May 18.—Adoption by bankers of the recommendations of Governor Harding of the federal reserve board to "liquidate frozen loans" was expected by board officials to alleviate the financial situation and to help bring down prices. Governor Harding applied the term "frozen loans" to credit extension which permits large stocks of merchandise to be held for speculation.

Representative King, of Illinois, recently charged in the house that present methods of financing were permitting commodities to be kept off the market with resultant increase in prices. The Illinois representative said he had been informed that in New York alone more than 70,000,000 pounds of condensed and evaporated milk were being held in storage in comparison with slightly more than 8,000,000 pounds a year ago.

Although legislation designed to drive foodstuffs from storage is now pending congress, it was said today that careful withdrawal of credit from food speculators might accomplish more than statutory regulation. It was emphasized, however, that discrimination should be exercised by bankers inasmuch as in many lines the summer months see an accumulation of commodities for the following winter.

**Rail Labor Board
Refuses to Accept
Yardmen's Petition**

By Associated Press Leased Wire
Chicago, May 19.—The United States Railway Labor board today flatly refused to hear petitions for increased wages presented by John Grunau, president of the Chicago Yardmen's Association and officers of other organizations which went on strikes recently in defiance of orders from the national railroad brotherhoods.

The boards in a ruling handed down by Judge R. M. Barton, chairman, announced that: "It must be thoroughly understood that the board can not and will not undertake to hear any disputes or controversies except those which it is authorized by law to hear, and cannot and will not hear the application of parties who are acting in disregard of the law and the rules of the board."

Abrogation of the practice of paying railroad employees time and a half for overtime is being sought by representatives of the railroad managers. Chairman, E. T. Whiter of the conference board of railroad managers yesterday quoted a statement attributed to Director General Walker D. Hines that the practice was "absolutely unqualified penalty."

FOCH DISTRUSTFUL

By Associated Press Leased Wire

Paris, May 19.—Warning that France must, in the midst of peace, make preparations for future wars was uttered by Marshal Foch, at the annual meeting of the Polytechnic school for many engineers today. Discussing lessons of the great war, he said the present ended struggle is the first part of the peace program, but preparation for war is the second part.

"Which of us," he asked, "dares believe Germany is renouncing war on the morrow of her ruin—Germany, which inspired by sheer ambition, took up arms in 1864, 1866, 1870 and on the plea of historic necessity? Germany's neighbors, whether they wish to or not, will be forced to keep up armies and maintain strong frontiers."

**STERLING LADY

DIED IN NIGHT**

**Mrs. Andrew Cass
Passed Away at No.
Dixon Home.**

Mrs. Andrew Cass of Sterling passed away last night at about midnight at the home of her cousin, Mrs. Henry Higley, of North Dixon. Mrs. Cass and cousins, Mr. and Mrs. Charles Craig, of Storm Lake, Ia., motored here from Sterling Tuesday afternoon and shortly after their arrival about 4 o'clock, Mrs. Cass was taken suddenly ill. Death was due to heart trouble following influenza, from which she suffered last winter and from the effects of which she never fully recovered. The remains were taken to Sterling and the funeral will be held Friday afternoon at 3 o'clock at the home of her son, Fred Eberley of Seventh St. Mrs. Cass is survived by her husband; a daughter, Mrs. Fred Sneed, with whom she and her husband made their home, and the son, Mr. Eberley. Mrs. Cass had many friends in Dixon, her former home, many remembering her as Marcia Page, which was her maiden name.

**Wm. Frasier, Poloite,
Called Tuesday Noon**

(Special to The Telegraph.)

Polo, Ill., May 19.—William Frasier, former Polo and Rockford business man, died at his home yesterday afternoon, death following an illness of about a year's duration. He was taken ill about three weeks ago and never recovered. Mr. Frasier was for a time engaged in the shoe business here and then went to Rockford where he conducted a clothing store for some time. Disposing of this business he returned to Polo.

He passed away at the home of his mother-in-law, Mrs. Louise Faulders. Mr. Frasier was born in Polo, Dec. 25, 1863, and 28 years ago married Miss Nellie Clark of this city. To this union one son, Robert, was born. The wife and son, his mother, Mrs. Daniel Beard; his step father; a half sister, Mrs. C. P. Herrick of Rockford; a half brother, Dr. Charles Beard of Sterling, survive him. His father and two brothers preceded him in death.

Funeral services will be conducted from the Faulders' home Thursday afternoon at 2 o'clock, Rev. W. Sloan Whitsett, pastor of the Presbyterian church officiating. Burial will take place in Fairmount cemetery.

**Downing Invites All
to Visit Rocks Park**

"The Rocks" park, west of Dixon along Rock river has been opened to the public and the owner, George J. Downing has invited the residents of Dixon and vicinity to visit and enjoy the natural beauties of this popular site. The farm was purchased recently by Mr. Downing, who plans in the future to make a public park of it. "The Rocks" is three miles west of Dixon on the Rock Island road. Entrance to the beautiful park is gained through what is known as the Heckman farm. The owner of the property requests that those visiting the park, in passing through the lanes, close all gates.

At this time of the year the woods afford millions of beautiful wild flowers and the scenery is unsurpassed. There are roadways through the timber for a distance of about a mile.

BULLETIN

By Associated Press Leased Wire

Rock Island, Ill., May 19.—Aroused by announcement of a tumble in prices in general on clothing and shoe lines, many of the larger department stores of the tri-city were today advertising 20 to 50 per cent reductions on their lines. It is rumored that some of the men's and boys' furnishing stores are soon to follow the larger stores' example.

By Associated Press Leased Wire
Chicago, May 19.—Reports of price cutting in wearing apparel continued today. Owners of department stores in various parts of the country announced reductions from 20 to 50 per cent. Shoe prices were reported out one-fifth in some quarters while a ready-to-wear establishment in Omaha announced 30 to 50 per cent reductions.

Silk shirts and suits for men were reported to have suffered radical cuts in Indiana, merchants offering men's furnishings at from 20 to 30 per cent below former prices. One establishment offered silk shirts at \$4.95, about half the former price. Ready-to-wear clothing for women and children was also reduced in price.

A 20 per cent reduction in all men's and boys' garments and shoes was offered by a store of Terre Haute, Ind. A percent reduction in nearly all goods was announced by one of the largest department stores in Youngstown, O. Among the larger department stores, all but one had placed on sale today their entire or almost entire stocks at discounts ranging from 20 to 50 per cent.

Retailers of Fresno, Cal., have announced general 20 to 30 reductions on silk goods, while El Paso, Tex., sent word that 33 1-3 per cent had been taken off the price of staple shoes and 25 per cent from the price of clothing.

There was little material change in the price of food and wearing apparel in Chicago.

BANKERS CUT LOANS.
By Associated Press Leased Wire
New York, May 19.—Pursuant to their pledge to the federal reserve board, leading banking interests here today extended their campaign of deflation of credits and high commodity prices.

This policy has already been effective in reducing speculative loans against securities hundreds of millions of dollars in the last fortnight.

Banks in the wholesale dry goods and general merchandise districts have been proceeding along the same lines and this is said to be responsible for the wave of price cutting in many lines of retail trade.

Downtown banks are reported to have advised drastic curtailment of loans to merchants who fail to comply with the government's deflation program.

Importers and other dealers in the more luxurious articles of apparel, as well as manufacturers of jewelry, and other so-called non-essentials, are said to have received word from their banks that only the most moderate financial accommodations may be expected at this time.

Corn Market Shows Continued Weakness

By Associated Press Leased Wire

Chicago, May 19.—Acute weakness manifested itself today in the corn market. May delivery at one time showed a fall of 12c a bushel but trade in that month was comparatively small, being restricted to dealers who have government food licenses. Setbacks in the more active options, July and September although not so extreme gave clear evidence of unusual selling pressure both on the part of longs and shorts. Financial strain and abnormal traffic conditions were the chief bearish factors. Opening prices which ranged from 3/4c to 2 1/2c lower, with July 1.67 1/2 to 1.68 1/2 and Sept. 1.57 1/2 to 1.59 1/2, were followed by decided further setbacks and then some thing of a rally.

Oats showed relative firmness as compared with corn. Big commission houses were aggressive buyers, and were able to take all the offerings. After opening 3/4c to 1 1/2c lower, including July at 88 1/2 to 89c the market sagged a little more and then began to harden.

Provisions were steadied by new upturns in the value of hogs. Only slight declines resulted from the weakness of corn.

Prospects of increased grain receipts and of general business curtailment gave the bears control of the market throughout the session. Prices closed nervous, 2 1/2c to 5 1/2c net lower, with July 1.67 1/2 to 1.68 1/2 and Sept. 1.57 1/2 to 1.59 1/2.

GUILD'S CALICO BALL—

A great success, the "Calico and over-all" ball given by the young ladies of St. Margaret's Guild of St. Luke's Episcopal church at Rosbro's hall on Tuesday evening is being much discussed today. Between \$50 and \$75 were cleared and the members of the guild are greatly pleased over the success of their efforts. Over two hundred people were in attendance. The hall, in its quilt decorations, with the lights shaded in patchwork effect, presented a most quaint and unique effect. Quilts were ranged all about the hall, among them one as old as 130 years. In a cosy corner were braided rugs and old-fashioned cover-lids. Rugs were also used in the balcony which was also attractively decorated. One of the pretty dances of the evening was one in which ribbon confetti was used. The members of St. Ann's Guild served coffee, doughnuts and lemonade throughout the entire evening.

OPERETTA CAST TO PICNIC—

The cast in the operetta, The Belle of Barnstable, given by the South Side High school pupils recently, together with those members of the faculty who assisted in its presentation or management, will have a picnic supper tomorrow evening at Lowell Park. Supt. and Mrs. Reeder, Mr. and Mrs. Potter, Miss Dole, Miss Chinchase, Miss Zilly, Mr. Stearns, and Mr. Vezina will accompany the members of the cast.

TO ADDRESS BROTHERHOOD—

Mr. Murdoch, of Wilmette, is here today, a guest at St. Luke's Episcopal rectory. He will address the meeting of the Brotherhood of St. Andrew this evening.

WITH ST. LUKE'S CHOIRS—

John Norton is out from Chicago today, meeting with the members of St. Luke's choir.

Fruit Not Hurt By Recent Frost

Justin L. Hartwell, well known horticulturist, says that no fruits suffered from the frost of May 14th with the exception of some very early strawberries. Cherries, apples, plums, pears, currants, gooseberries were not injured in the slightest by the frost, according to Mr. Hartwell's investigations.

Mrs. W. C. Durkes was a passenger to Chicago this morning to visit for a few days.

CARRANZA CAPTURED

By Associated Press Leased Wire
Houston, Texas, May 19.—General Carranza has been captured by revolutionary forces and has been given a safe conduct to Vera Cruz provided he leaves Mexico at once, according to unofficial messages received today by a local paper. The report could not be confirmed.

Clerks Want Stores to Close at 5 p. m.

Petitions are being circulated among the down town business men by the clerks, asking that the stores close at 5 o'clock in the evening during the months of June, July and August. The stores would remain open on Saturday evening as is the present custom, the clerks desiring to have the hour from 5 to 6 during the hot months of the summer.

Conrad Groth Died Late This Morning

Conrad Groth, well known aged farmer, died at the home of his son, Conrad Groth, Jr., on the Middle road, east of town, this morning at 11:30 o'clock. Death was due to the infirmities of old age. Obituary and funeral notice will be published later.

CLEANING RIVER BANK

Some of the owners of pleasure boats with wharfs along East River street have started a movement for cleaning up the landings and banks there. The movement is a very good one and some of the boat owners have applied paint generously to improve the appearance along this much traveled thoroughfare.

FINGERS BADLY CUT

George Kramer, a wire drawer at the east end Reynolds plant, had two fingers of his left hand badly lacerated while at work yesterday. He was taken to the office of a physician where the members were dressed, and will be laid up for a few days.

"IT DID THE WORK" STATES SALESMAN

Had Not Seen a Well Day in Two Years Before Taking Tanlac.

"Yes, sir, the way Tanlac has built me up has set all my friends to talking about my remarkable improvement," said Carl G. Cato, a well-known retail salesman living at 322 1/2 South Sixth Street, Springfield, Ill., recently.

"All my life I had enjoyed the best kind of health up until two years ago but since then I have hardly known what a well day was. My appetite was so poor that when I sat down to the table I had no taste for anything and I had to force myself to eat enough to keep from starving. Naturally, I lost considerable weight and got in a badly run-down condition. Sharp, sickening headaches often came on me while I was at the store and I would go so weak and dizzy I felt like I was going to faint and I would have to leave my work and go home and go to bed. My nerves were shattered and I noticed myself growing irritable and fretful and some of my old friends were beginning to remark about how bad my health was getting and to advise me to do something to get back in good shape before it was too late.

"One day I got a letter from my daughter in Decatur, Ill., advising me to try Tanlac as she had taken it with fine results. I gave it a trial and I want to say it did the work and now all my friends who used to sympathize with me are congratulating me on how well and strong I am looking. I have the finest kind of appetite and everything tastes good. I have already gained ten pounds and am still adding on more weight right along. I am free from nervousness and dizziness and the sickening headaches left me long ago. Tanlac proved to be a friend in need and I am always telling the customers what it did for me."

Tanlac is sold in Dixon by Public Drug & Book Co., and by the leading druggists in every town.

Mrs. G. H. Putnam has gone to Huron, S. D., called by the serious illness of a daughter, Mrs. B. W. Beach.

CHICAGO MASONS HERE

About 50 members of St. Cecilia chapter of Chicago and Horicon chapter of Rochelle, arrived in Dixon this afternoon and are guests of the members of Dixon chapter, No. 56, R. A. M. Shortly after 1 o'clock the visitors were tendered a luncheon at the Masonic Temple and then enjoyed an automobile trip to Lowell park and other points of interest. At the park, a game of ball was a feature. This evening at 6:30 the guests will be banqueted at the Masonic Temple and at 7:15 a 45 minute concert will be given by the orchestra from the Chicago chapter, to which members of the various Masonic bodies and their wives will be invited. Following the concert, St. Cecilia chapter will confer the Royal Arch degree on a class of candidates.

R. S. Kline went to Chicago this noon on a brief business trip.

Police May Stop Filthy Practice

Complaint was made to the police this morning concerning a practice of long standing of scrubbing out places of business and sweeping the dirty water out on the sidewalk where it is permitted to run as it may. From a sanitary standpoint as well as detracting from the attractiveness of the business district, the practice is a very unseemly one. The complaint this morning is not the first that has been registered against this practice and prosecutions may follow.

CHANDLER SIX Famous For Its Marvelous Motor

Why The Chandler Holds Its Leadership

THE Chandler car has attained and held its place of leadership among all sixes, by steadfast pursuance of worthy policies.

There is but one Chandler car, one Chandler chassis. To that chassis, for seven years, have been devoted the ambitions and the engineering ability and the sincere purposes of its builders.

Featuring this sturdy chassis is the famous Chandler motor, brought to a plane approximating perfection through these years of refinement and development.

Nearly eighty thousand Chandler owners know the excellence of this motor. They know its power, and the flexibility of its power. They know its endurance. They know its economy. They know it affords all the speed that any responsible driver would ever wish or dare to use. They know that on mountain roads it leads the way up.

On this one chassis are six handsome and comfortable types of body, built by America's best body-builders and splendidly finished and cushioned.

CAVE FAREWELL—

The N. S. M. club, of which the Misses Constance Wingert, Elizabeth Hennessy, Gladys Scott, Margaret Beech, Dorothy Lennon, Helen Edwards, Ruth Jacobson, Helen Sullivan and Ruth Unger are members, gave a party last evening in honor of Margaret Beech and Ruth Unger, two of the members who are leaving town. Miss Beech, whose parents return to China in June, will enter a school in California, and Miss Unger will go to Polo with her parents, who are having Dixon to make Polo their home. Miss Unger, who is ill of scarlet fever, was unable to be present at last evening's affair, which was a progressive dinner party. The first course of roast beef, mashed potatoes, gravy, rolls, fruit salad, pickles, and hot chocolate was served at the home of Miss Helen Sullivan; devil's food cake and ice cream composed the second course which was served at the home of Dorothy Lennon. The company then went to the home of Helen Edwards where all kinds of progressive games were played and music was enjoyed. Mrs. Edwards served fruit frappe, wafers, and salted nuts, thus concluding a very enjoyable evening.

INTER NOS CIRCLE—
Mrs. Curtis Rice will entertain the members of the Inter Nos Circle and their husbands at her home tomorrow evening.

CLASSES TO MEET—
Mrs. H. W. Leydig and Miss Leake's classes of the Methodist Sunday school are requested to meet at the church tomorrow after school.

ST. ANN'S GUILD—
St. Ann's Guild will have a meeting Friday at 2 o'clock in the guild rooms of St. Luke's Episcopal church.

BURKET SCHOOL PICNIC—

The Burket school, taught by Miss Gertrude Heid, closed with an all-day picnic Thursday. At noon a most delicious scramble dinner was prepared by the ladies, mothers of the pupils. That they certainly knew how to cook was the consensus of opinion of all who partook of the exceptionally good repast. The school board also did its share in getting ten gallons of ice cream. After the dinner a program of recitations and songs was given by the school, and later a number of the guests contributed musical selections and made talks. Between sixty-five and seventy were present.

OFFICERS WERE CHOSEN—

The following officers will serve for the ensuing year for the Epworth League of the Methodist church:
President—Evelyn Street.
First Vice President—Lois Keyes.
Second Vice President—Gladys Smith.
Third Vice Presidents—Eugene Vest and Newell Lumsden.
Fourth Vice Presidents—Alice Richardson and Milla Wohlke.
Chorister—Mr. Stearns.
Pianist—Cornelia Charles.
Treasurer—Evelyn Dana.
Secretary—Mabel Smith.

FOR MRS. ALGAR—

The Young Woman's Bible class of the Methodist church will enjoy an all-day social affair at the Mrs. Street cottage in Assembly Park on Thursday in honor of Mrs. Arthur Algar. A scramble luncheon will be served at noon, for which the members are to bring own dishes, silver, sandwiches, and one other article of food.

SOCIAL AT MOUND SCHOOL—

Miss Ruth Book, teacher at the Mound school, and her pupils are giving a basket social on Friday evening, May 21st, which they hope will be largely attended. Everyone is invited to attend and ladies are asked to bring baskets.

ON WAY TO MONTANA—

Mr. and Mrs. J. H. Cullen and daughter were guests Sunday at the John Bennett home on Eleventh St. They are motoring to Carter, Mont., and continued their journey Tuesday morning.

P. N. G. CLUB MEETING—

A meeting of the Past Noble Grands club will be held tomorrow afternoon at 3 o'clock in 1. O. O. F. hall. A scramble supper will be served.

GUESTS FROM FREEPORT—

Mrs. William Margraf and daughter, Marjorie Jane, of Freeport, are guests at the home of Mrs. F. M. Keeley, of Galena avenue.

TO VISIT IN PENNSYLVANIA—

Miss Blanche Dyant left this morning for Bellwood, Pa., for a visit with her aunt, Mrs. W. H. Morrow.

Palmer Forces in Georgia Convention Beaten By Combine

By Associated Press Leased Wire
Atlanta, Ga., May 19.—Georgia Democrats will send two sets of delegates to the San Francisco convention. After supporters of Senator Hoke Smith and Thomas E. Watson had united their forces and thus gained control of the state convention, delegates pledged to A. Mitchell Palmer last night elected a Palmer delegation and announced they would contest for seats in the national convention. Palmer obtained a plurality of county votes in the recent statewide primary over Watson and Smith who finished in the order named. The Smith-Watson forces also succeeded in putting the convention on record by resolutions as unalterably opposed to the League of Nations covenant and as refusing to endorse the administration of President Wilson. They adopted resolutions adopting free press, free speech and asking repeal of all espionage, sedition and conscription laws passed during the war.

Sister Mary's Kitchen

Sour milk has many uses and not the least is its action on ink stains. If the stain is fresh, put into sour milk and soak until the spot is gone. An old stain may not respond to sour milk alone. The milk will remove the worst darkness but it may need a weak solution of chloride of lime to make the article clear. After soaking two or three hours in milk rinse in the solution. If the stain is still in evidence try rinsing in ammonia water.

Menu For Tomorrow

Breakfast—Baked bananas, broiled bacon with watercress, brown bread toast, coffee.
Luncheon—Creamed dried beef, French fried potatoes, baking powder biscuits, orange and rhubarb marmalade, tea.
Dinner—Left-over soup, salmon croquettes, creamed peas, dandelion greens, radishes, cottage pudding, coffee.

My Own Recipes

Watercress gives a delightful freshness and spice to breakfast. Brown bread toast has a most delicious crispy, nutty flavor. The wholesomeness of this toast makes it very attractive, too. And the baked bananas are different.

Baked Bananas

4 bananas
1 tablespoon melted butter
3 tablespoons sugar
1-8 tablespoon salt
1-2 tablespoons lemon juice.
Remove bananas from skins. Cut in halves lengthwise. Put in a shallow pan. Mix butter, sugar, salt and lemon juice. Pour half the mixture over bananas and bake in a slow oven. Baste during baking with remaining mixture.

Orange and Rhubarb Marmalade

6 oranges
1-2 pound carrots
4 pounds rhubarb
7 cups sugar.
Put carrots through coarse knife

or food chopper and cook in water to just cover and keep from burning until tender. Remove rind from oranges in eighths and cook in water to cover until tender. Cut rind in narrow strips and combine with cooked carrots. Add orange pulp with seeds and tough part of skin removed. Add rhubarb, not skinned, cut into inch pieces. Cook until rhubarb is tender in water to cover. Add sugar and cook slowly until thick. A "pinch" of salt may be added to the sugar. Turn into jelly glasses.
These days a penny won't even buy a person's thoughts.

PATS ON THE BACK

How does the old kindergarten
rhyme run?

Kind hearts are gardens,
Kind thoughts are roots,
Kind words are blossoms,
Kind deeds are fruits.

These lines ought to have a place
among the prettily inscribed mottoes,
epigrams and moral reflections that
men like to hang over their desks in
factories and offices.

Efficiency systems do not take
enough account of the efficiency value
of the generous word of appreciation;
the pat on the back.

"Old man, you've done a good job
of this!"

Gosh, how that sort of thing puts
pep into a fellow. It shines up the
whole day for him. It helps him do
the next job even better.

If on another day his work is criti-
cized, he accepts criticism with good
grace, because he knows that though
it's a knock today, he'll be getting a
boost tomorrow, if it's coming to him.

"In our office we hear from the boss
only when we fall down," says a
young fellow.

In such a place there is lacking a
prime essential if pep, efficiency, loy-
alty and enthusiastic co-operation are
to be maintained. The sincere word
of appreciation goes a long way with
the average man. Try it on the next
fellow who does a good job, Mr. Em-
ployer.

Such is Life

DO NEVER MEET 'IM?

Why are the customers swearing?
What puts the boss in a rage?
He's sugared the meats, there's
spice in the sweets.

The ice cream is garnished with sage,
Alphonse the cook is the fellow
That's drawing the general curse,
His love for a Jane has put bugs in
his brain.

And everything's making him worse.

Mrs. Squire Abner Harpington
calls general attention to the well-
known fact that man and the worm
are much alike in this respect:
The chicken gets 'em both.

Probably there'd be fewer short-
ages of other things if there was
more of a shortage of customers at
the counter.

Dr. T. A. Williams, neurological
advisor to the Red Cross in France,
says:

"The normal man can love two
women and be true to both."

But why TWO?
And if TWO, why not THREE?
If THREE, why not a DOZEN?

In this whiskerless age, really,
we ought to stop calling 'em blue
BEARDS.

Confessions of a Bride

(Copyright 1920, by The Newspaper Enterprise Association)

Chrys began her story with her disappearance from the secret chamber.

"I never knew who carried me off," she said. "I was watching Spence and Archer as they pounded down the panel in the wall. Suddenly a shawl was flung over my head and fingers tightened over my throat and kept me from calling out. I was dragged up a flight of stairs—I was dragged roughly and I was very much afraid. For the first time in my life, I was afraid, Jane. That was because I could not see. I think I was choked into insensibility. When I could move freely—and open my eyes, I found myself in a hovel. I think it was the meanest hut in the village."

It is Impossible to Imagine Chrys Eating Coarse Mexican Food.

"Impossible!" I exclaimed. "You—Chrys Lorimer—shut up in a dirty shanty?"

"For days and days, my dear," Chrys replied.

"And eating coarse common Mexican food?"

"Surely. And very glad to get it, after a few days."

"Horrible! Now I understand why you were all in when we found you on the beach—and so helpless in the storm. How terrible!"

"Not at all, Jane. Not at all! I had all the comforts the poor natives had. If it was not an impossible habitation for other human beings, why should it prove impossible for me?"

"I looked at the girl in astonishment. Plainly, the tender soul which had been missing from that beautiful body had found its way back at last."

"Nobody ought to exist under the conditions I saw in that place. And yet thousands do—the poverty stricken in every corner of the globe. Since the war, more thousands than ever in the history of the world, I suppose. Nobody can learn how hateful poverty is just by reading about it. Nobody can know what starvation means unless he is deprived of food. You've got to live, Jane. Well, I've lived it all. Don't feel sorry because I suffered, my dear. I do not regret anything that happened. I'm really glad, Jane."

"Chrys, you talk as if you'd gone back to your job of reforming the universe," I said.

"Maybe I have," she said softly. "But not in the old way. I'd begin re- form now with the individual. And first, I'd set everybody to work. Many peo- ple are lazy. People do not realize that human comforts only come from hon- est effort. This old world isn't suffering from any too much honest effort, just now."

"Jane, I learned the worst there is to know about life during those awful days in the hovel. Noise, smells, dirt, wretched food, quarreling and brutality, greed, selfishness, crime and sin. I met them all face to face. And I discovered how blind I had always been to them as actual facts in this big world. I dis- covered how willfully I had ignored them just because they were so hideous that the thoughts of them hurt me. I saw for the first time that they fill the years for millions of human beings. And I counted my nice friends and my nice relatives, cultured and well-to-do persons who positively refuse to behold any form of human wretchedness, just as I have always done. Jane, we felt the rule of war. And we hated it—and stamped it out. Now we are ruled by greed—and we haven't any machinery ready to stamp that out. Jane, I be- lieve that human greed makes poverty and I vowed that if I ever got out of that hole—and back to my tribe again, I'd spend my days making this world less selfish. As soon as I stopped thinking about myself, something inside of me relaxed. And I spoke, one day, to a little child which was crying bitterly because it had been beaten. I spoke out loud without remembering that I had been dumb for months! I forgot myself to comfort a baby!"

Hysteria had always cursed Chrys Lorimer. Never would it do so any more I realized as she finished her story:

"My Prince Charming, you see, was a pitiful, weeping infant!"

Judging from the speed displayed, you may be sure, asserts Squire Abner Harpington, that A. Mitch Palmer had no hand in the arrest.

Some old-timers still remember the day when it was thought necessary to borrow a little boy so one could take in the circus without being frowned upon by those who consid- ed circus-going a thing for childish ambition only.

This country never will be entirely and exactly free until courtroom spectators are not denied the privi- lege they enjoy of bawling out the judicial umpire, as they are wont to do from the bleachers when the ump hands the game over to the visiting team.

It is quite the thing among mo- torists being held up for cheap-rasco- line-at-high-prices to refer to him as John Dough Rockefeller.

Johnie Dough Rockefeller must have had in mind the high cost of gas when he complained against the "modern tendency to get all you can."

He should have told his pa. That might have done some good. Yes, might is the right word.

ADVENTURES OF THE TWINS

by Olive Roberts Barton

PHIL FROG'S DREAM

"Who comes next?" asked Nancy, tying on her apron. She and Nick had returned to Scrub-Up Land, as they had finished their errand in the Land-Where-Spring-Was-Coming.

Rubadub, the fairyman, nodded toward the corner where there was a great snoring behind the door. "Phil Frog's next," he said meaningly. "See if you can get him awake."

The twins tiptoed over to where Phil lay, with his head on a little pillow and veiled "Boo" at him.

Phil smiled broadly in his sleep, and murmured drowsily, "That's lovely, Miss Pollywog! Simply lovely! Would you mind singing that last note again?"

The twins were much astonished at such an answer, but Phil was soon snoring again.

Nick gave him a little poke—no, it was a good sized Poke—and shouted, "Wake up! Hey! Wake up, you!"

But Phil only smiled again more sweetly than ever, and said, "Adorable creature! How I love the touch of your soft hand!"

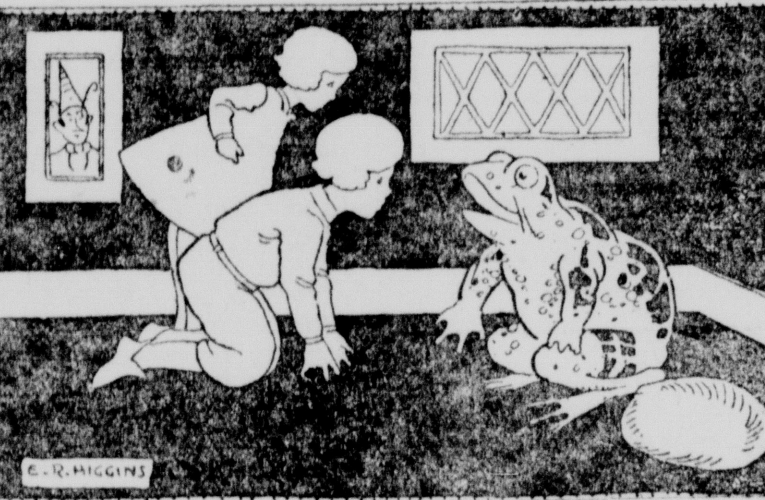

"Well, I never!" said Rubadub, arriving on the scene. "Singing pollywogs! Adorable creatures! Hump! Mr. Frog must have been eating cheese and pie before he went to bed, to make him dream like that. Wait! I bet I can wake him up, and I won't throw cold water on him either." And going quite close to Phil's ear he yelled, "Flies! Flies!" as loud as he could.

That got him! Up he sat, blink hard and smacking his lips expectantly. "Is it really fly time?" he beamed. "Good old fly time!"

"Is it really fly time?" he beamed. "Good old fly time!" My! I haven't seen a fly since papers were a penny. You see, I've been down under the mud all winter and I came here to get cleaned up before going to the Land-Where-Spring-is-Coming. I must have fallen asleep again."

"You did," said Rubadub. "And you're as shabby as an old shoe."

Health Advice

Don't go into the water until you know how deep it is.

Get some competent swimmer to wade over a certain area to locate any holes, "step-offs," quicksand, or mud that will not sustain the bather's weight, even in water. Then confine yourself to this area.

Be careful not to get beyond your depth when learning to swim. Imi- tate the minnow and swim close to the shore. Above all things, do not ex- haust yourself. Take it easy.

Endeavor to have a good, strong swimmer in the party.

Don't dive in shallow water.

Rescuing the Drowning. Do not attempt the impossible in trying to rescue a drowning person. If

the water is deep, or the surf strong, endeavor to throw a rope, plank or log the drowning person.

When you go to the rescue of a drowning person, endeavor to reas- sure and calm him by telling him you will be able to save him. If the per- son is "wild," grasping frantically for something to hold on to, keep at a safe distance until he tires and then swim in close enough to grasp him by the hair. Turn him on his back and swim for the shore, or, if help is near at hand, simply keep afloat until it reaches you.

If the person has gone down be- fore you reach the spot, dive for him. Frequently the exact spot may be lo- cated by rising bubbles. Grasp the hair of his head, using the other arm and feet to rise to the surface.

Artificial Respiration. Artificial respiration will frequently restore an apparently drowned person. You should learn how to perform this

very important life-saving measure. First, however, get the water out of

the patient's lungs. When you reach

the shore, lay the patient on his ab- domen. Straddle his back and place the hands under the lower part of the abdomen. Lift the hips and abdomen until the water in the lungs runs out of the mouth.

The operator kneels astride the pa- tient's back and places his hands, close together, one on each side of the backbone, at the region of the short ribs, or "small" of the back. The op-

erator then leans forward and throws his weight on his hands. This presses the lower part of the chest against the ground and the contents of the belly up against the lungs. This forces the air out of the lungs. The pressure is to be applied quite firmly, but not roughly. The operator then takes the weight from his hands. The removal of pressure permits the chest to expand and this draws air into the lungs. After waiting about three sec- onds to allow the fresh air to become mixed with the blood, the operator repeats the process. The movements should be performed at the rate of about 12 to 14 per minute, the pres- sure at the small of the back being applied for about one second, another second allowed for the chest to expand and about three seconds allowed for the air to mix with the blood. This allows five seconds for each cycle.

When the patient begins to breathe without artificial respiration, he should be turned on his back and stimulants administered. The body should be made warm and the limbs vigorously rubbed and warmed.

If America doesn't protect the dye industry it will soon be a dead indus- try.

BUILDING NOW GOOD INVESTMENT, SAYS PROMINENT BUILDER

Right Kind of Houses Will Always Bring Returns

Dixon people who may contemplate building will be interested in the following letter received by H. H. Heinze from a prominent contractor, Dear Mr. Heinze: You will want to know that every statement in this letter is made upon my responsibility as General Manager and Vice President of this company. Perhaps the most important question in your mind is this:—If I build today at present costs am I making a sound, wise investment, or will I in a few years, have a building on my hands which is greatly reduced in value? You should ask yourself that question and you should answer it right. If the information I give you in this letter will lead you to a wise decision then it will have served its purpose.

First of all let me say that the prospective builder may look with confidence upon the future value of the right sort of buildings erected now—of highest grade materials and of the proper design and planning.

America needs more houses and barns than it has. From 1914 to 1918 we only built 78 per cent of the buildings we usually built and needed to care for population. Result—Over-demand for houses everywhere. If there were an under demand it would be unsafe to build because prices would sure go down but the OVER DEMAND still exists as strong as ever and must continue to exist, in the face of conditions with which I shall try to acquaint you, not only for months but for years. Refer to any newspaper in the land for proof of OVER DEMAND for houses.

Another important factor in the situation is that of SUPPLY, and in viewing the lumber situation, the outstanding conclusion is forced upon us that the day of low priced lumber has passed. The forests of the North are gone and in the apparently inexhaustible yellow pine forests of the South there remains only an estimated cut of fifteen years. For some years past, the great Northwest has become an important source of lumber. It must be born in mind that as American lumber resources are cut, we will be closer to a period of more scarce and higher priced lumber.

During the war, surplus supplies of lumber and millwork were used for war purposes. Labor was scarce, and at the time of the Armistice there were no surplus supplies and a record-breaking boom opened up.

There could be but one result—scarcity of material and higher prices in all lumber and kindred products.

This is particularly true of millwork conditions are critical. The production capacity of American millwork manufacturers is wholly inadequate in the face of the big demands for manufactured wood products. Hundreds of houses last fall stood uncompleted because of lack of sash and doors. This year, conditions will be even worse. Practically all of the millwork manufacturers of this country are sold out for 1920 and some are sold out into 1921.

After all, supply and demand govern prices. In the writer's belief, we are at the beginning of a long period during which there can be no apparent

FANNIE IS HAPPY AS NICKY GIVES UP

NEW YORK—Fannie Price, Polles actress, is more than happy that her husband, Nicky Arnstein, has given himself up. After a long search he is being held in connection with the \$5,000,000 Liberty bond plot. While Arnstein was free Fannie was unable to see him much. Now they can be together.

preciable reduction in lumber or lumber products. No other products are surrounded with the same conditions of over-demand and short supply, and a dollar invested in houses or barns, is twice as safe as a dollar invested in any other staple or necessity. Today, lumber and its kindred products are the SURE value.

The building rush is on, and during 1920 and 1921 the country will make an effort to catch up for lost time. Because of this, the market still holds indications of somewhat higher prices and everything points to either a maintenance of the present price level or a very gradual decline during the next four or five years.

It is the writer's belief that the erection of new buildings at present costs represents a sound investment. In building such buildings, however, care should be taken that the materials are bought at full value prices, that the material is of such a nature as to stand up under the wear and tear of time, that the building be designed so that it permanently conforms to good taste, and that the interior planning be so soundly worked out as to be permanently right. A building of this nature will retain its value indefinitely.

STRIKES COST NATION OVER TWO BILLIONS IN 1919 BANKER STATES

New York Financier Says It is Time Americans "Wake Up"

By Associated Press Leased Wire

New York, May 19.—An incomplete list of direct losses due to strikes in 1919 places the cost to labor in wages at nearly \$24,000,000 and to industry at more than one and one quarter billion dollars. Francis H. Sisson, vice president of the Guaranty Trust company of New York told the silver jubilee convention of the National Association of Manufacturers here today. The chief danger in the present situation, Mr. Sisson said, is that the desirability of low prices as an end in itself may be so exaggerated as to lead to the attempt to force prices down through harmful measures for the control of credit.

Banker Sisson spoke on industrial unrest, and blaming strike fevers for high living costs and increased rents. He urged the conservation of natural resources as a means of maintaining our economic position in the world.

"We have heard much about rent profiteering," Mr. Sisson said, "but organized labor either does not realize or closes its eyes to the fact that every time men employed in the building trades go on a strike or shirk they penalize society—which includes themselves—by increasing the cost of building."

Declaring that the United States is living beyond its means, Mr. Sisson said, "the facts are such as should arouse us from our comatose state of snug contentment. Unless we are aroused before it is too late we cannot hope to retain for long our vast store of gold or our enormously favorable trade balance or our unprecedented prosperity."

Mr. Sisson asked, "are we a business people or are we not? Have we the political intelligence to govern ourselves efficiently or not? We must provide our own answers."

"It is time indeed for another Joseph Choate to cry out to our people 'America, wake up—and for God's sake hurry.'"

Quarter Million of Poles Coming to U. S.

By Associated Press Leased Wire

Warsaw, May 18.—Arrangements have been completed for the transportation of 200,000 poles weekly from Poland to the United States by the Hebrew Sheltering & Immigrant Aid Society of America, which recently opened offices in Warsaw. The Polish authorities estimate that a quarter of a million persons already have applied for passports, about 95 per cent of these being women and children, dependents of persons now in America. The first ship load of 800 immigrants left Danzig two weeks ago.

SILKS - SILKS - SILKS EVERYTHING IN SILKS

In order to give those an opportunity who were not prepared to participate in the Big Silk Sale bargains last week, we will continue the sale

FRIDAY AND SATURDAY, MAY 21 AND 22

A saving of 50c to \$1.00 per yard is worth looking after. During the three-days sale last week we sold hundreds of yards and every buyer was delighted with the quality of the Silks—the wonder was how we could afford to sell them so much under price. This sale includes Crepe de Chine, Georgette Crepe, Wash Satin, Satin de Chine, fancy and plain Poplins, Taffeta, etc.

If you need anything in the Silk line don't forget FRIDAY and SATURDAY.

Our prices on all kinds of Dry Goods and Millinery are always the lowest.

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.

HOW TO GROW FOOD IN YOUR GARDEN

By W. F. Fechner,
Champion War Garden Director of America
Pests and Disease

While most of the insects belonging to the two classes of which we spoke in our last are easily controlled or stamped out by the methods suggested, there are a few that appear from time to time in various sections that need special mention:

Cucumber beetle, a small, greenish and black striped beetle, attacks young cucumber plants from the underneath side of the leaf, and also often cuts the plants off just above the ground. Control by dusting Paris green as directed on underneath side of leaf. Covering plants while young with mosquito netting frame, also at planting time plant a few extra seed so as to not miss a few killed by the beetle, also scatter a liberal sprinkling of lime around the stem of vine where it comes out of the ground, and also pick off by hand. After the plants have attained considerable size the beetle will do little damage.

Harlequin Cabbage Bug
This small turtle-shaped, brightly-colored red and black bug can not be killed by present known insecticides, but must be hand-picked as soon as he appears.

Squash Bug
This is also more often called the "stink bug", is nearly as large around as a small "little finger" nail, is almost black in color, and has a piercing mouth-piece similar to the mosquito, and when you smash one it emits a very bad odor. Use same preventive measure as advised for cucumber beetle.

To prevent potato scab, mix one-third pint of formaldehyde in 10 gallons of water, put your seed potatoes in a porous sack and let hang in

the solution two hours, then cut and plant.

For blight or other fungus diseases on tomatoes, potatoes, etc., spray with Bordeaux mixture, according to directions on label.

Sprays and spraying material can usually be bought at the local seed store and at some drug stores.

A TWICE TOLD TALE

One of Interest to Our Readers

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Dixon woman is confirmed after four years.

Mrs. M. Y. Cox, 614 Van Buren Ave., says: "A short time ago my back began to bother me. I had a dull, heavy pain in the small of my back and it hurt me when I stooped over or straightened up. I also had headaches and frequent dizzy spells. I used one box of Doan's Kidney Pills and they entirely removed the trouble."

(Statement given January 22, 1917.)

NO TROUBLE SINCE

On April 23, 1918, Mrs. Cox said: "Since Doan's Kidney Pills cured me I have never had a sign of kidney complaint. The recommendation I gave for Doan's Kidney Pills in 1915 still holds good."

Price 60c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cox had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

dren spent Sunday at the Samuel Nettz home.

Mrs. Weed Jones was a caller in Polo Monday.

Noah Beard was a caller in Polo Tuesday.

Miss Grace Funk, who has been visiting her brother at Pine Creek, returned to her home in Oregon Thursday.

The communion service at the Pine Creek church will be held Saturday evening, commencing at 6.30 o'clock, and on Sunday morning Sunday school

will be held at 10 o'clock and preaching services at 11 o'clock by Prof. Randolph, of Mt. Morris college. The singing will be conducted by Rev. Mr. Wantler. All are cordially invited to attend these services.

Ernest Schmitt had the misfortune to be kicked by a horse on Saturday morning, the injury causing him considerable suffering. He is at present improving.

Mr. and Mrs. Cyrus Toms, of Pine Creek, entertained Sunday Mr. and Mrs. Grover Portner, of Aurora, Mr.

and Mrs. J. D. Portner, and daughter, Edith, of Grand Detour, Oliver Portner and son, Mr. and Mrs. Mart Portner and family, Mr. and Mrs. Sprinkle and children, Mr. and Mrs. Bakio and family, and Mr. and Mrs. Traut and family, all of Rock Falls.

Equip Your Smaller Car With Goodyear Tires

If you own a Ford, Chevrolet, Dort, Maxwell or any other car using 30x3, 30x3 1/2, or 31x4-inch tires, you can well take advantage of the high relative value built into all Goodyear Tires.

You can well do so because you can secure in the smaller Goodyear Tires the results of such skill and care as have made Goodyear Tires the preferred equipment on the highest priced automobiles of the day.

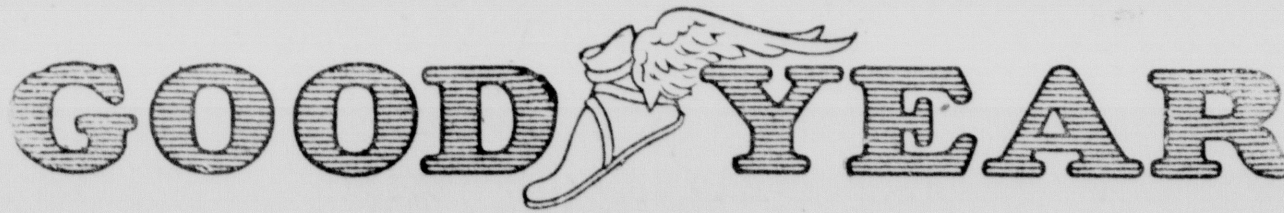

You can well do so because these smaller Goodyear Tires are easy to obtain, being produced at the rate of approximately 20,000 a day, and because their first cost usually is as low or lower than that of other tires in the same types and sizes.

Go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He supplies many other local owners of the smaller cars.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in waterproof bag \$4.50

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre with Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation, improved by the addition of other ingredients, in a large bottle, at little cost, at drug stores. Known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. All you just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks battle internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, cold, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Decay-Proof Fence Posts

"My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime."

This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years.

CREOSOTED POSTS

Yellow Pine POSTS

Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay.

Send at once for Free Circular regarding "The Post Revolution"—and learn how to end all your post and fence troubles and save from \$50 up each year now spent in repairs and replacements.

HOW TO RAISE
BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thackeray, R. F. D. 8, St. Paul, O., writes: "I had 90 chicks and they all died but 32. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry supply dealers, or you can send 25c or 50c today for a package by mail postpaid. Burrell-Dugger Co., 655 Columbia Bldg., Indianapolis, Ind.

HOTEL BREVOORT

CHICAGO

A Word of Advice
Regarding the Time of
Your Visit to Chicago

On June 8 the Republican National Convention convenes in Chicago. For an indefinite time previous to and following that date Chicago hotels will, in all probability, be unable to accommodate persons who have not made reservations far in advance. Another crowded period will be from July 5 to 10, when the great gathering of Elks takes place. It will be well, therefore, for those who can, to so arrange their visit as to come either previous to June 1 or after July 10. Tourists will find the month of August an especially favorable time. In any event, the only safe plan to insure satisfactory hotel accommodations is to reserve rooms well in advance.

This statement by the management is prompted by the keen personal concern for the comfort of its guests which is at all times felt by all the staff of Brevort Hotel. That you may know and enjoy the full measure of hospitality for which Brevort Hotel is famed and so find double pleasure in your visit to Chicago is the wish of all.

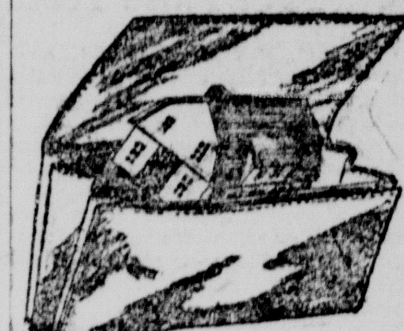

RATES

Room, bath detached, one person, \$2.25 and up, per day.
2 persons, \$4.00 and up, per day.
Room with private bath, one person, \$3.50 and up, per day.
2 persons, \$5.00 and up, per day.

For quality of service combined with moderation in prices The Main Restaurant and Old English Grill are supreme in Chicago. A unique new feature is the "Cold Buffet" where sandwiches, etc., are served throughout the day.

IF YOU ARE RENTING, and are enjoying (?) that sensation of uncertainty as to how long it will be before the house is sold and you will have to move to—goodness only knows where—come in and see us. We're the ones that people you ever saw to get up to you don't have to hand us oranges on the end of a fish-pole. Your only regret will be that you didn't get acquainted with us long before.

Speaking of the security of homes to rent reminds us of the experience of one lady who looked up just 15 hours before she found one she could get, and then she had to take a place and let the old rooster who owned it retain a room or two—just think of all that racing around and telephoning and then not being able to get a whole house for her family. Moral: See Sterling!" and buy a home and thus save a lot of time and trouble.

Will be in the office on Sundays from 10 to 12 in the forenoon and from 2 to 4 in the afternoon, to take care of people who can't get away from their work during the week.

No trouble to show property. We have one or more slunk-barouches on duty days, nights and Sundays.

Here's a list of homes on tap at this time, and we have lots of others:

Would Abolish Ill. Coroners' Offices

Springfield, Ill., May 18.—Debate on the majority and minority reports presented by the county and township organization committee of the Illinois constitutional convention opened today with prospect of a lengthy discussion.

The principal point of difference in the two reports is on Section 6. The minority report, presented by Delegate Lewis Jarman of Rushville, would prohibit county treasurers and sheriffs from succeeding themselves in office. The majority report would permit them to run for re-election.

Both reports contain provisions for abolishing the office of coroner by making the county sheriff the ex-officio coroner. It is also provided that the county assessor shall be ex-officio treasurer and collector.

Only Relatives at This Double Funeral

Champaign, Ill., May 18.—With only relatives and most intimate friends attending, double funeral services were held at 10 o'clock this morning for Horace Leroy Walton, Illinois Central train bandit, killed early Friday morning by Chicago police and his father, H. L. Walton, whose death was caused by shock while he was en route from his home in St. Joseph, Mo., to Chicago to claim the body of his son. The services were held at the home of Mrs. Albert Mollet, sister of Mrs. Walton. Rev. G. P. Hoster, pastor of Emmanuel Memorial Episcopal church, delivered the funeral sermon.

Mrs. Walton, formerly Miss Mary McCarthy, was married in Champaign and her son was born here. Burial was in a family lot in Rose-lawn cemetery.

Senator Fall and Aid Threatened By Mex.

Washington, May 18.—Charles E. Jones, former department of justice agent today charged Mexican agents in the United States with having threatened disgrace and death to Senator Fall of New Mexico, chairman of the senate committee investigating Mexican affairs, and to W. H. Hanson, one of Chairman Fall's assistants.

Mr. Jones, who made his charges before the Mexican investigating committee, said Raymond P. De Negri, former Mexican consul general in New York, had told him last fall that they (Fall and Hanson) will be shot very soon, very soon.

De Negri added, Jones said, that he had "a man in New York now to fix them." The former Mexican consul general, according to Jones also asserted that "Americans having tremendous political influence with the United States administration are assisting with efforts to disgrace the Fall committee."

Wilson Compliments Salvation Army Work

Washington, May 18. — President Wilson today telegraphed Evangeline Booth, commander of the Salvation Army, complimenting the organization upon its war services.

"I want to express my very deep interest in the appeal of the Salvation Army for funds," the president said. "The Salvation Army, performed services during the war which ought permanently to endear it to all lovers of the country and of disinterested action. I hope that your efforts for funds will be successful even beyond your expectations."

Shock-Absorbers For False Teeth

Cleveland, May 1.—Non-Skid Shock Absorbers for false teeth are the latest thing. Heretofore the principle of shock absorbers has been limited in application but now a Cleveland chemical concern advertises a powder which sprinkled upon "store teeth," forms a smooth cushion, holds them firmly in place, and gives a "non-skid" effect while they romp over the toughest roasting ears of corn and chew the stickiest candy.

One who has lost his natural teeth can supply himself with this antiseptic, adhesive comfort powder—Corega—at a drug store, and proceed to laugh and sneeze, crack nuts and do other hazardous things without risk of shaking his prized false teeth from their upper and lower berths. 35c at druggists.—Adv.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.
